

Some of the Methods and Tools we master in the 3 disciplines we connect

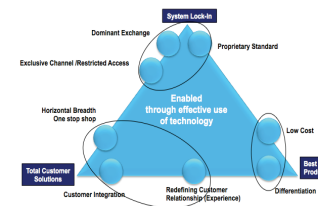

The S-Curves to focus strategic efforts

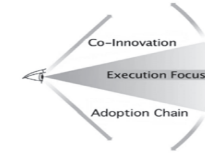

The Innovation Panorama to create a complete portfolio

Scenario Thinking and Planning to anticipate several possible Futures and design a strategy that maximises robustness and Flexibility

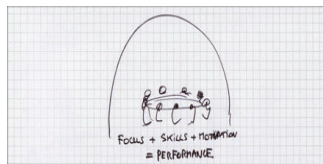

The MIT Strategic Triangle to reinvent customer segmentation and define bonding Strategies

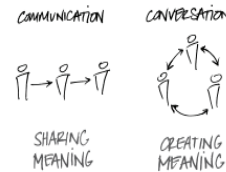

The "ECOsystem" approach to avoid the Blind Spot of execution, build coalitions for successful deployment

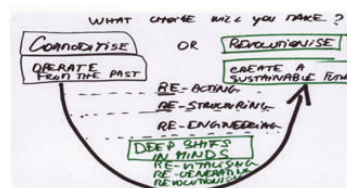

Blue Economy, breakthrough innovations inspired by nature, offering more with less, generating multiple benefits, including jobs and social capital

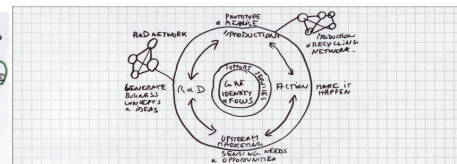

"Innovation Biotops", i.e. focused, super dynamic and multidisciplinary practice fields for Collaborative Innovation

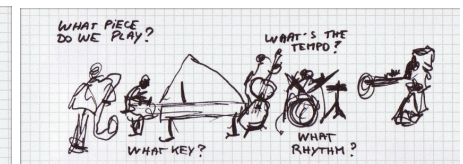

Dialogue, powerful and strategic Conversations

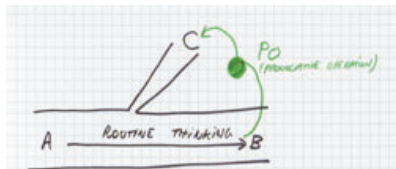

The M.I.T "Theory U" for transformative processes, shifting attention and intention to create the Future you really want to bring about

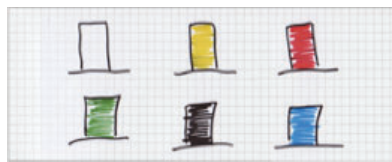

The Flow-Viewer to imagine and visually describe the way your Business and your work will be best performed in the real world, while allowing for the maximisation of everyone's contribution, commitment and learning

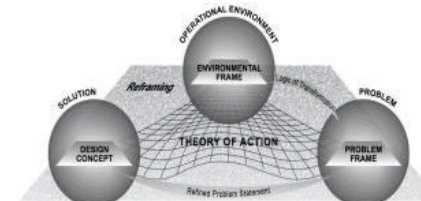

Our exclusive workshop "Jazz and Management" to experience the Jazz "Combo" as the perfect metaphor of a new Art of Collaboration. Based on Focus and Freedom, it is much more appropriate today than a Classical Orchestra metaphor based on command and control

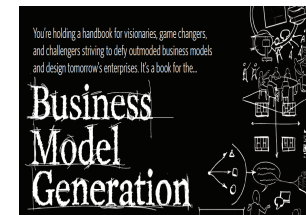

The fabulous Lateral Thinking, Invented by Dr. Edward de Bono, essential to identify "routine" Thinking patterns, challenge them and generate genuinely innovative alternatives. We are Certified experts by Edward de Bono himself as experts since 1993

Dr. Edward de Bono's excellent and powerful "Six Thinking Hats" method which induces Parallel, Creative and Collaborative Thinking. It allows to reduce meeting time by 75% and increase their productivity manifolds. We are also certified experts since 1993

Design thinking and design Driven Innovation to contextualize, identify true "demands" and needs, visualize, prototype and pivot fast, while breaking the silo lines.

A Book we co-authored with the famous Business Model Canvas to design a portfolio of Business Models
